## ABOUT ME

+3 year experienced in IT and an expert frontend developer, interested in writing codes, skilled at developing complex solutions, creating user friendly designs, excellent and dependable team player with strong analytical thinking skills. Quick to learn and adapt to new technologies, and create new solutions according to problems. Proven skills in problem solving, product life cycle, Frontend/Web Development specializing in ReactJS. As a dependable team player, I am dedicated to providing exceptional support and achieving goals through persistence, self-discipline, and reliability. It is recommended to review the github profile.

## WORK EXPERIENCE

### Frontend Developer

**Fazla / Whole Surplus** [ 12/03/2023 – 17/11/2023 ]

City: İstanbul

Country: Türkiye

As a Frontend Developer at Fazla Gıda/Whole Surplus in Istanbul, Turkey, I excelled in Nx monorepo projects, utilizing HTML, CSS, JavaScript ES6, Typescript, React.js, Next.js, and React Native. Proficient in Material UI, React functional components, and experienced in Unit and e2e testing. Skilled in Sentry.io for error tracking, Git for version control, and well-versed in SCRUM, Agile methodologies, and JIRA for effective project management.

### Frontend Developer

**Servicepark** [ 10/03/2022 – 12/03/2023 ]

City: İstanbul

Country: Türkiye

As a Frontend Developer at Servicepark in Istanbul, Turkey, I specialized in HTML, CSS, JavaScript ES6, Typescript, and React. Proficient in React functional components and custom hooks, I developed applications using Typescript and Bootstrap. My expertise extends to Computational Thinking, Operating Systems, Linux, Version Control Systems (Git & Gitlab), and Software Development Life Cycle (SDLC). I successfully applied SCRUM & Agile methodologies, along with JIRA, to achieve optimal results in both individual and group projects.

### Frontend Developer

**Freelancer** [ 01/04/2021 – 10/03/2022 ]

City: İstanbul

Country: Türkiye

Worked according to customer requests. In this context, the technology stacks and designs used were selected and used in line with the customer's wishes; like HTML, CSS, SASS, Bootstrap and Javascript

## PROJECTS

### Fazla Market

[ 12/03/2023 – 17/12/2023 ]

As a Frontend Developer, I played a pivotal role in the creation of a high-performance commercial website using Next.js, Material-UI, and Tanstack Query. Leveraging the capabilities of Next.js, I implemented server-side

rendering for enhanced performance, while Material-UI components added a modern and cohesive design. The integration of Tanstack Query optimized data fetching and management, contributing to the overall responsiveness of the site. Through collaborative efforts with cross-functional teams, I ensured the seamless alignment of development with business goals.

### **Fazla Portal**

[ 12/03/2023 – 17/12/2023 ]

The management panel of the Fazla - <https://apps.apple.com/tr/app/fazla/id1536386027?l=tr> - app. Javascript, MaterialUI, ContextAPI, React Table, UnitTests/E2E Tests

Link: <https://portal.fazla.com>

### **Monitorpark**

[ 12/03/2022 – 12/03/2023 ]

I designed and developed a cutting-edge B2B admin panel/dashboard platform leveraging React, TypeScript, Bootstrap, and GitLab for. This dynamic solution empowers users to effortlessly monitor and control their IT infrastructure with an intuitive interface, featuring specialized charts and a robust reporting section.

### **Esperanza Grup**

[ 01/07/2021 – 15/08/2021 ]

In this project, I developed a single-page application that showcases the cafes owned by the client and the services they offer. With a focus on user-friendliness and engaging design, I worked diligently to create a customer-oriented solution.
